GREAT RACE
EVENT REGULATIONS

I. ADMINISTRATION

I. A. Definition

1. The Great Race National Event (HEMMINGS MOTOR NEWS GREAT RACE); Great Race Regional Rallies; and VCRA Regional Rallies are automotive competitions based on precision driving and navigational skills in classic, antique, and vintage automobiles. The Events are timed, controlled-speed, endurance rallies—not top-speed races. Each vehicle must follow a prescribed common route while attempting to maintain assigned average speeds.
2. These Event Regulations apply to the 2011 HEMMINGS MOTOR NEWS GREAT RACE (hereafter GREAT RACE); and also to Regional Rallies presented by both Great Race and VCRA (generally three-day events), unless a Regulation is marked [GREAT RACE only], [Regional Rallies only], [VCRA Regional Rallies only], or [Great Race Regional Rallies only].
3. [VCRA Regional Rallies only] VCRA is a not-for-profit entity that donates all proceeds to the Autism Society of America and/or other Autism Awareness or related programs in need.
4. [GREAT RACE only] GREAT RACE is June 11 to June 17, 2011, from Chattanooga, Tennessee, to Bennington, Vermont. The competition is 7 Stages. The exact format of those Stages will be given in an Event Supplement. Those Stages will include the following:
 - a. Stages 1 through 5 are qualifying Stages.
 - b. Stages 6 and 7 are a two-Stage Championship Run.
 - c. Winners are determined by scores calculated on time, as defined in I.H.3.
5. [Regional Rallies only] The competition is usually three Stages.

I. B. Organization

1. GREAT RACE and each Great Race Regional Rally are conducted by Great Race, Chattanooga, Tennessee (hereafter Great Race), and shall be under the control of officials designated by the Great Race organization. Each VCRA Regional Rally is conducted by Vintage Rally Car Association, Incorporated, Grove, Oklahoma (hereafter VCRA), and shall be under the control of officials designated by VCRA.

STAFF

Director, Great Race	Corky Coker
Assistant Director, Great Race	Wes Kliner
Director of Cities/Entries, Great Race	Jeff Stumb
Director of Competition, Great Race	John Classen
Event Director, VCRA	Rex Gardner
Course Graphics	Jeanne English
Chief of Scoring, Great Race	John Schmidt
Chief Technical Inspector, Great Race	Don Currie

2. GREAT RACE and each Great Race Regional Rally and VCRA Regional Rally are governed by these regulations, and any Supplements issued thereto. Any rules additions, changes, or special conditions for any event will be posted in that event's "Official Entry Form" and/or in an Event Supplement.
3. Submission of a completed and signed Entry Form and a paid Entry fee, and starting the first Stage of GREAT RACE, a Great Race Regional Rally, or a VCRA Regional Rally constitutes acceptance by each competitor of these and any other rules or regulations governing the Event.

I. C. Communications

1. All inquiries for entry, press information, or sponsorship should be directed to:
Great Race and Great Race Regional Rallies:
www.Greatrace.com or info@Greatrace.com or 800-251-6336 extension 209
VCRA Regional Rallies: Vintage Car Rally Association, Inc., 62001 E 327 Road, Grove, Oklahoma 74344
www.vintagecarrally.com or rgard@groveemail.com or 918-801-2406
2. Official notices (including daily results) will be posted in the evening event venue and/or at the morning start location.
 - a. Contestants, Entrants, Sponsors, and Support Crews are responsible for observing all official notices posted in the evening event venue or at the morning start location.
 - b. Great Race and VCRA will make all attempts to post official notices during the event no later than one-half hour prior to the official Stage start each day.

3. A meeting of all participants, sponsors, and staff will be held prior to the start at a time and location to be announced in the Schedule of Events. Attendance by each entrant and all official competition and support crew members is mandatory.
4. Course Instructions for each Stage are available to each team as specified in VII.B.2.
5. Supplemental Regulations, Emergency Instructions, official notices, event information, and other written instructions may also be issued. Such information may be handed out with Course Instructions, posted in the evening event venue, at the morning start location, at an observation check point at any given place or time on the course, or made available after notice of availability is posted in the evening event venue or at the morning start location.
6. Information which may be helpful, but not necessary to the competition, may be given orally. Oral information is always on an informal basis, and is not official. The Event Regulations, Event Supplements, and other written materials govern the Event and take precedence over any oral information or interpretation.

I. D. Schedule of Events (Preliminary)

A complete Schedule of Events will be given in an Event Supplement and posted on www.greatrace.com or www.vintagecarrally.com.

1. [GREAT RACE only] Preliminary Schedule of Events

Thursday and Friday, June 9 and 10, 2011	Registration, Vehicle Inspection, Rally School
Saturday, June 11	Official Start, Chattanooga, Tennessee; Stage 1
Sunday, June 12 through Wednesday, June 15	Stages 2-5
Thursday, June 16	Stage 6 (Championship Run)
Friday, June 17	Stage 7 (Championship Run); Grand Finish, Bennington

I. E. [GREAT RACE only] Divisions: Each team will compete in Grand Championship Division or Expert Division or Sportsman Division or X-Cup Division. In addition, eligible teams may compete in Rookie Class (see I.F).

1. Grand Championship Division: Any entering team may compete in the Grand Championship Division by selecting that Division on their Entry Form. The following persons must compete in Grand Championship Division: Any member of a team which has finished in first place in the final championship standings (all classes/divisions combined) on any previous Great Race or any VCRA National Event (Hemmings Challenge).
2. Expert Division: Except for those teams required to compete in the Grand Championship Division as specified in I.E.1 above, any entering team may compete in the Expert Division by selecting that Division on their Entry Form. The following persons must compete in Expert Division (unless they are required to compete in Grand Championship Division):
 - a. Any member of a team which has finished in the top ten positions in the final championship standings (all classes/divisions combined) on any previous Great Race or any VCRA National Event (Hemmings Challenge).
 - b. Any member of a team which has finished in the top ten positions in the final cumulative standings (all classes/divisions combined) on any Great Race from 1986 through 2002.
 - c. Any person who has three times finished in the top five positions on any Great Race Stage (all classes/divisions combined) from 1986 through the present or on any VCRA National Event (Hemmings Challenge) Stage.
 - d. Any competitor who, in the opinion of the Great Race Director or Director of Competition, is ineligible for Sportsman Division due to his or her qualifications as a rallyist
3. Sportsman Division: All other teams may compete in Sportsman Division.
4. X-Cup teams are qualified high-school/college/youth-group teams. X-Cup competitors are eligible for only X-Cup awards. The following persons may compete in the X-Cup:
 - a. X-Cup drivers: Each driver must be either at least 21 years old and younger than 25 years old as of Stage 1; or an adult member of the team who is eligible for Sportsman Division (as defined in I.E.3) in Great Race Competition.
 - b. X-Cup navigators: Each X-Cup navigator must be a member of the high-school/college/youth-group team, and be younger than 22 years old as of Stage 1.

I. F. [GREAT RACE only] Rookie Class: In addition, any eligible team may compete in Rookie Class. In order to qualify for Rookie Class and be eligible for Rookie Awards, no vehicle occupant on any Stage may have been a contestant in any previous GREAT RACE or any VCRA National Event (Hemmings Challenge). No vehicle occupant on any Stage may have been a contestant on more than six Stages on any Great Race Regional Rallies and/or VCRA Regional Rallies, including GREAT RACE Tours, with the following exception: A person who has never run a GREAT RACE or VCRA Event may run all the Regional Rallies in the current competition year (from the previous July through the current GREAT RACE) and still be eligible for Rookie Class.

I. G. [Regional Rallies only] Divisions and Classes: The class and divisions, if any, will be designated on the entry form(s) and Event Supplement(s). X-Cup teams are subject to I.E.4.

I. H. Eligibility for Awards

1. [GREAT RACE only] To be eligible for any Award a team must complete the 7-Stage competition in accordance with the following requirements:
 - a. The competing vehicle must pass all required Technical Inspections.
 - b. The competing vehicle must start Stage 1.
 - c. The competing vehicle must start and finish the final Stage (Stage 7).

- d. The team must not be disqualified.
2. [Regional Rallies only] To be eligible for any Award a team must complete the competition in accordance with the following requirements:
 - a. The competing vehicle must pass all required Technical Inspections.
 - b. The competing vehicle must start Stage 1.
 - c. The competing vehicle must start and finish the final Stage.
 - d. The team must not be disqualified.
3. [GREAT RACE only] The Championship Standings are determined based on each Team's Cumulative Score. A Cumulative Score for the Event (Grand Championship Score) is determined for each Team in the following manner:
 - a. Grand Championship Division Teams: the total scores for all but the 3 worst of each team's Legs on any of the Qualifying Stages (Stages 1-5), plus the total scores for the Championship Run (Stages 6 and 7). (Grand Championship Division teams' cumulative standings during the event will show one Leg discarded after Stage 2, another after Stage 4, and a third after Stage 5.)
 - b. Expert Division Teams: the total scores for all but the 4 worst of each team's Legs on any of the Qualifying Stages (Stages 1-5), plus the total scores for the Championship Run (Stages 6 and 7). (Expert Division teams' cumulative standings during the event will show one Leg discarded after Stage 2, another after Stage 3, a third after Stage 4, and a fourth after Stage 5.)
 - c. Sportsman Division Teams: the total scores for all but the 5 worst of each team's Legs on any of the Qualifying Stages (Stages 1-5), plus the total scores for the Championship Run (Stages 6 and 7). (Sportsman Division teams' cumulative standings during the event will show one Leg discarded after Stage 1, another after Stage 2, a third after Stage 3, a fourth after Stage 4, and a fifth after Stage 5.)
 - d. X-Cup Teams: the total scores for all but the 5 worst of each team's Legs on any of the Qualifying Stages (Stages 1-5), plus the total scores for the Championship Run (Stages 6 and 7). (X-Cup Division teams' cumulative standings during the event will show one Leg discarded after Stage 1, another after Stage 2, a third after Stage 3, a fourth after Stage 4, and a fifth after Stage 5.)
4. [GREAT RACE only] Basis for Awards
 - a. Grand Championship Division Awards, Expert Division Awards, and Sportsman Division Awards are based on Cumulative Score, as defined in I.H.3.
 - b. Rookie Class Awards are based on Cumulative Score, as defined in I.H.3.
 - c. Ace Awards are given for each Ace (perfect leg score of zero).
5. [Regional Rallies only] Awards and prizes are generally, but not always, based on cumulative scores for all divisions and/or classes. Exact scoring methods will be posted prior to each event and will be reviewed at the event's mandatory meeting.
6. All competing vehicles and contestants are subject to search by GREAT RACE/VCRA officials at any time during the competition. Refusal to allow a search is cause for disqualification. A team found with illegal equipment is subject to the penalties specified in VI.B.3.
7. Each entrant and his/her crew must comply with all rules, regulations, and supplemental regulations governing GREAT RACE and Regional Rallies.
8. The winners of awards posted for other than timed competition are determined by an Awards Committee selected by Great Race or VCRA.
9. If unexpected circumstances should prevent the completion of the Event as planned (i.e., major storms, natural disasters, etc.), Great Race or VCRA may alter or terminate the competition and award the posted prizes in a manner which, at its sole discretion, Great Race or VCRA feels is appropriate, equitable, and fair.

I. Prizes and Awards

1. Winners will receive prizes and awards after certification of the results by Event officials.
2. Amounts, types, and distribution of prizes and awards will be announced.

II. ENTRY REQUIREMENTS

II. A. Eligibility for Entry

1. All contestants, vehicles, and crew members must be approved by Great Race/VCRA Entry and Technical Committees.
2. [GREAT RACE only] Vehicle entries must have been manufactured in 1969 or earlier and shall be as defined in Part IX. A Hot Rod or Muscle Car that because of its power train, suspension, equipment, or other modifications would be considered a post-1969 vehicle for purposes of applying an age factor may be accepted for entry on an individual review basis based on Great Race's determination that it complies with the spirit of encouraging the participation of vehicles whose body styles are 1969 and earlier.
3. [Regional Rallies only] Vehicle entries may be any model year and shall be as defined in Part IX.

II. B. Entries

1. [GREAT RACE only] Entry Fees
 - a. Corporate Entry: \$3,500.00 per car. A Corporate Entry is defined as a for-profit business which requires signage on the competing vehicle and/or stands to gain from publicity resulting from participating in GREAT RACE. Corporate Entries receive priority in start position (see III.A.1.b).
 - b. Private Entry: \$3,000.00 per car.
 - c. X-cup Entry: \$1,500.00 per car
 - d. Private Entry Fees received by February 28, 2011 will receive a \$250.00 discount (\$2,750.00).
2. [GREAT RACE only] An entry application, accompanied by the full entry fee and digital photos of the proposed entry vehicle, the driver, and the navigator, must be submitted to the GREAT RACE Entry Committee.
3. [Regional Rallies only] An entry application, accompanied by the full entry fee, must be submitted to the Great Race or VCRA Entry Committee.
4. All drivers will be required to show a valid operator's permit/license for the state/province/country in which they reside. A learner's permit is not a valid license for this Event. Each entrant will be required to provide proof of ownership (see IV.A), proof of vehicle registration, proof of insurance (see IV.B,C), and a copy of a valid driver license for each driver. These may be submitted with the entry application or presented at Registration.
5. All entrants must designate the name and social security number of the person or business to whom any cash award checks and/or cash will be paid.
6. Date of Entry
 - a. The date of receipt of your full entry fee establishes your date of entry.
 - b. The date of entry may be used to establish the team's Stage 1 starting position within each group (see III.A.2,3).
7. After receipt of an application for entry along with the full entry fee, Great Race or VCRA will notify the applicant of acceptance or rejection of the entry.
8. Once accepted, vehicle entries must not be changed or transferred without written permission of Great Race or VCRA. In case an entered vehicle is deemed unable to compete prior to the official start, a substitute vehicle will be allowed only with the approval of Great Race or VCRA, which includes all vehicle requirements, such as vehicle inspection, insurance verification, registration, and required signage in place. Once the Event competition has started, no vehicle substitution is permitted.
9. The Committee may reject any entry application without stated cause. If the entry is not accepted, the deposit and/or entry fee will be refunded. All entries are subject to Technical Inspection (see VIII.A) prior to final acceptance.

II. C. Refunds

1. Upon acceptance of an entry by Great Race or VCRA, any refunds are at the discretion of Great Race or VCRA respectively. Generally, refunds requested under a hardship situation will be made at 80% of entry fee or deposit made. In the case of VCRA events 100% can be applied toward any other VCRA event within the calendar year.
2. Neither inability to complete the Event nor disqualification is cause for refund of entry fees.

II. D. Crew Composition (Competition and Support)

1. A competition crew of two persons (generally described as a driver and a navigator) is required in each competing vehicle. A single-seat vehicle (motorcycle, single-seat racer, etc.) may have a competition crew of only one person with specific permission of Great Race or VCRA.
2. A competing vehicle must have a seat for each occupant.
3. ALL OCCUPANTS OF A COMPETING VEHICLE DURING COMPETITION MUST DISPLAY OFFICIAL GREAT RACE/VCRA IDENTIFICATION TAGS during all competition and event functions.
4. Additional Occupants
 - a. A team which will have more than two occupants in their vehicle on any portion of a Stage must notify Race Headquarters, in writing, stating the number of occupants and their status (Media or Competitor), prior to the start of that Stage.
 - b. A penalty of 5 seconds will be added to the Stage score of any competing vehicle for each additional occupant(s) of age 12 years or older present in the vehicle during any portion of that day's competition, other than an Official GREAT RACE/VCRA Staff Person or a person (such as a VIP or media representative) authorized in writing by Great Race or VCRA.
5. Crew substitutions
 - a. Crews beginning any single Stage (day) must run the entire Stage with no substitutions allowed. Crew substitution is permitted between Stages. Crew substitutions must be noted in writing to Race Headquarters before the start of each Stage.
 - b. Driver and navigator may trade positions with each other at any time.
 - c. After the start of the Event, a competitor must not compete in a vehicle other than his or her official entry vehicle.
6. Entrants, contestants, support crew members, workers, Event officials, and all other personnel connected with the Event must sign an INDEMNIFICATION AGREEMENT, RELEASE, AND AGREEMENT NOT TO SUE, a STANDARD TALENT

RELEASE, and a Photographic/Videography Image Release prior to their participation in the Event. Minors under the age of 19 must have a properly executed minor's release on file with Great Race or VCRA.

II. E. Support Vehicles

1. Each official entry is allowed one official support vehicle at no charge. Any vehicle accompanying the race is considered an official support vehicle. Additional official support vehicles may accompany the race for an additional charge. Any additional crew members accompanying the race are considered official support crew members and must receive Great Race/ VCRA credentials.
 - a. [GREAT RACE only] Official support vehicles must carry the official GREAT RACE signage and identifying number. Each entry will be issued a pair of support vehicle number decals.
 - (1) One number decal is to be placed on each side of the entry's support vehicle.
 - (2) If a support vehicle is supporting more than one entry, it must carry number decals for each entry it is supporting.
 - (3) Number decal pairs must not be separated to be used on more than one vehicle.
2. A support vehicle may be designated as the official support vehicle for more than one entry.
3. During a Stage, a competing vehicle may receive service and/or assistance from official GREAT RACE/VCRA Course Vehicles and personnel, from another competitor, and from a business or individual not otherwise directly associated with any competitor. During a Stage, a competing vehicle must not receive service, assistance, or communications from anyone associated with any Event competitor including, but not limited to, a support vehicles, family member, or friend.
4. Support vehicles must follow Support Crew Instructions.
5. A support vehicle must not travel near its competing vehicle. On some Stages, support vehicles must not be in the field of competing vehicles during the competition. On those Stages the Director of Competition will make notice of proximity issues in the Support Crew Instructions, it is recommended that support vehicles depart at least one-half hour prior to the official start of the Stage.
6. A support vehicle which, for any reason, finds itself in the field of competing vehicles when instructed not to must take the following steps to avoid receiving the penalty stipulated in II.E.8:
 - a. Immediately pull to the side of the road and park in a safe location, to await passage of the official sweep vehicle.
 - b. After the official sweep vehicle has passed, the support vehicle may proceed, but must remain behind the sweep vehicle (or take a route other than the Race Route).
7. Pit Areas
 - a. At overnight cities, one area may be designated for entry vehicle parking and sponsor displays (the pit area), and another for support vehicle parking. Support vehicles must park in the designated support vehicle parking area. Support vehicles must not enter or park in the pit area before the Finish Gate and final Observation Checkpoint have closed.
 - b. If a common area is designated for entry vehicle and support vehicle parking and for sponsor displays, support vehicles must not park where sponsor displays are indicated.
 - c. A team whose support vehicle parks in violation of the above requirements, without prior written permission from Great Race or VCRA, will receive a support vehicle penalty.
8. If a team's support vehicle is observed violating Support Crew Instructions (such as moving in the field of competing vehicles when instructed not to; traveling near its competing vehicle; or violating parking instructions) the team will receive a penalty of 1 minute for the first occurrence, 5 minutes for the second occurrence, and disqualification for the third occurrence.
9. If a support vehicle is designated the official support vehicle for more than one competitor, each of the competitors will receive the penalties assessed because of that support vehicle.
10. [GREAT RACE only] Corporate Entries
 - a. A Corporate Entry may have, in addition to one support vehicle, one promotional vehicle which will be used solely to promote and publicize the sponsor's participation in the Event.
 - b. Each Corporate Entry will receive a set of two "Entry Sponsor" decals to be applied to the Corporate Entry promotional vehicle.
 - c. This vehicle and Corporate Entry representatives will be allowed to travel to promoted lunch stops for promotion and publicity purposes. The Corporate Entry will receive special Course Instructions for the promotional vehicle to reach these stops, and the promotional vehicle must follow this route. The instructions may at times direct travel over portions of the competition route. Except when so directed, the Corporate Entry promotional vehicle must not follow the competition route. It must not travel near its competing vehicle. Except as noted here, the Corporate Entry promotional vehicle is subject to the same restrictions and penalties as a support vehicle.
 - d. The Corporate Entry promotional vehicle must not be used as a support vehicle.

II. F. Official Signage

1. All competing vehicles are required to display the official GREAT RACE/VCRA signage and identifying numbers.

2. The front doors of the competing vehicle (or the prominent space nearest to that location) are to carry GREAT RACE/VCRA official signage only.
3. Competitors must install/apply other official signage as designated by Great Race or VCRA. THE OFFICIAL SIGNAGE TAKES PRECEDENCE OVER THE COMPETITOR'S SPONSOR SIGNAGE.

II. G. Sponsor Signage

1. All sponsor signage displayed on a competing vehicle must be in good taste, is subject to approval of Great Race or VCRA, and must not conflict with GREAT RACE/VCRA Official Signage. Competing vehicles and official support vehicles must not display signage, advertising, or promotional material of any type that conflicts with the official sponsors and products of the Event. Any use of the GREAT RACE or VCRA Name, Logo, or Trademark must have written permission from Great Race or VCRA. Race teams must not incorporate the names and/or graphic artwork GREAT RACE, Great American Race, VCRA, or derivatives thereof for their own purposes (including, but not limited to, uniforms, T-shirts, patches, team signage, trading cards, postcards, and/or web sites). Because of laws governing intellectual property rights and sponsor agreements we must enforce this rule. Teams found in violation will not be allowed to compete.
2. Sponsor signage is limited to the following.
 - a. [GREAT RACE only] Corporate Entry: Either one 200-square-inch decal on each side of the competing vehicle (400 square inches total); or one 300-square-inch decal on either the front or rear of the competing vehicle
 - b. [GREAT RACE only] Private Entry: NO SPONSOR SIGNAGE.
 - c. [Regional Rallies only] All event sponsor signage must be in good taste and is regulated in size and location by the sponsorship agreements (copies available on request).
3. Personal Signage is limited to the following:
 - a. [GREAT RACE only] A vehicle/competitor/team name on one 10-inch by 4-inch decal on each side of the competing vehicle: These team name decals cannot refer to a Corporate Sponsor and must be approved by Great Race.
 - b. [GREAT RACE only] Driver and navigator names and hometowns, not to exceed 12 square inches on each side of the competing vehicle
 - c. [Regional Rallies only] Each entry's personal sponsor signage and driver/navigator name(s) are allowed subject to Great Race or VCRA approval.

II. H. Equipment

1. The following equipment is allowed in competing vehicles:
 - a. Pencils, pens, and scratch pads
 - b. Vehicle performance notes and speedometer performance notes
 - c. Race tables, instructions, and maps furnished by Great Race or VCRA.
 - d. Timepieces
 - (1) **One mechanical or quartz-crystal analog time-of-day watch or clock:** This is the primary timepiece and is the responsibility of the contestant. The watch/clock may have (one each) analog hour, minute, and second hand. The clock must not have stopwatch, compensating, calculating, or split-action functions, or digital readout. The clock must not be electrically connected to the vehicle (i.e., it must have its own internal battery, rather than using the vehicle's). A clock with forbidden functions (such as stopwatch, split-action, etc.) that has been modified to disable those functions is not allowed. Temporary marks are allowed on the glass face. The maximum clock dimension (height, width, diameter, etc.) is 10 inches measured on the face of the clock.
 - (2) **Wristwatches:** In addition, the driver and navigator may each wear one approved analog wristwatch without stopwatch function.
 - (3) **Stopwatch:** Each team may have one approved digital or analog stopwatch; the stopwatch may also have split-action, time-of-day, date, and alarm functions.
 - (4) No other timekeeping devices are allowed in the vehicle.
 - e. One radio receiving the standard broadcast AM-FM frequencies only
 - f. One analog tire pressure gauge, one analog compass, one analog thermometer, and one analog altimeter
 - g. One non-radio intercom system allowing communication only between driver and navigator which requires a wired or tube connection to function; i.e., helmets with microphones and earphones: Teams using these devices must register them with the GREAT RACE/VCRA Chief Technical Inspector.
 - h. One operating analog speedometer approved by Great Race or VCRA as defined here is allowed in each entry vehicle. Any type of measuring device other than as defined here is prohibited.
 - (1) The one operational speedometer may be an aftermarket unit; if so, THE VEHICLE'S ORIGINAL SPEEDOMETER WILL BE COVERED AND SEALED.
 - (2) Digital speedometers are prohibited.
 - (3) An in-line speedometer correction gear box is allowed.
 - (4) Maximum face diameter is 4 inches; maximum overall housing diameter is 4-3/4 inches.
 - (5) Calibration divisions on the face must read no closer than one MPH increments.

- (6) ALL COMPETING VEHICLE ODOMETERS MUST BE COVERED AND SEALED OR COMPLETELY REMOVED PRIOR TO THE START OF THE EVENT. The seal will be applied in such a way that the odometer will be rendered unreadable. (The speedometer will remain readable.) Contestants may remove the odometer wheels (it's recommended) from their speedometer or cover the odometer under the glass face prior to Technical Inspection in lieu of having the seal applied to the face of the speedometer.
- (7) GREAT RACE/VCRA officials may require the modification or removal of any odometer or other device to assure that it cannot be used to measure distance.
- (8) Speedometer drives for electronic speedometers: Only one magnetic pickup unit is allowed on the vehicle; it should be located in an unobtrusive location.
 - i. Cellular telephone(s) to be used only in case of emergency: The use of a cellular telephone other than in an emergency may result in a penalty for unsportsmanlike conduct as specified in VI.B.3.
 - j. Digital cameras and video cameras which have a digital clock are permissible, but use of the digital clock is unsporting conduct.
- 2. The following equipment is prohibited in competing vehicles:
 - a. Any maps, charts, tables, pace notes, or course materials from prior GREAT RACE/VCRA Events, except as specifically allowed above
 - b. Any calculating device, timing device, measuring device, recording device, or radio (including one that receives WWV or CHU), except as specifically allowed above
 - c. Telescopes, binoculars, cameras with telephoto lenses, and similar optical devices (cameras with zoom lenses are permissible)
 - d. Any positioning or communication device which uses radio, cellular, or satellite technology (such as Global Positioning System), other than the cellular telephone allowed by II.H.1.i.
 - e. Any other electronic device which has a digital clock or digital display
- 3. Prohibited equipment must not be carried or stored anywhere in the competing vehicle.
- 4. A team found with illegal equipment is subject to the penalties specified in VI.B.3.

ORDER OF START

- III. A. [GREAT RACE only] Starting Positions are determined by Great Race.
 - 1. The vehicles are divided into three groups:
 - a. Group I: hometown and home state entries (depending upon our geographic location, we often start hometown and home state teams up front)
 - b. Group II: Corporate Entries (Corporate Entries, paying the higher entry fee, receive priority due to promotional commitments)
 - c. Group III: Private Entries and X-cup entries
 - 2. On Stage 1, the order of start is the 2007 GREAT RACE Grand Champion, followed by the 2010 VCRA Hemmings Challenge Grand Champion, followed by Group II, Group I, Group III. The starting order within Group II and Group III is determined by the date of entry (see II.B.6).
 - 3. On Stages 2 through 6, the order of start will be Group I, Group II, Group III. Teams will draw for start positions within Group II and within Group III.
 - 4. On Stage 7 the order of start will be determined by GREAT RACE officials.
- III. B. [Great Race Regional Rallies only] Starting Positions are determined by date of entry (see II.B.6) for Stage 1 and then by draw for each subsequent stage. Great Race at its discretion may exercise the option to assign certain entrants starting positions.
- III. C. [VCRA Regional Rallies only] Starting Positions are determined by draw at Registration for Stage 1 and then by draw for each subsequent stage. VCRA at its discretion may exercise the option to assign certain entrants starting positions.
- III. D. Non-Competing Vehicles: Competitors who have left the competition must notify Race Headquarters so their starting position may be released, and are responsible for canceling their hotel reservations.

INSURANCE

- IV. A. Ownership
Each entrant must certify that the vehicle entered is properly licensed, insured, and fully legal for use on public roads, and either is owned by the entrant, or present proof the vehicle is being used by the entrant with the owner's knowledge and permission.
- IV. B. Limits of Liability
Each competing vehicle must be covered by liability insurance provided by the participants and must carry at least \$250,000 per Person/\$500,000 per Accident/\$100,000 Property Damage limits of liability, or \$500,000 combined single limit of liability.
- IV. C. Proof of Insurance

Each entrant must provide a copy of the declarations page of his or her insurance policy or a certificate of insurance naming the entry vehicle and showing coverage dates and limits of liability. Insurance must cover the entire period of the event.

IV. D. Accident Reports

If an entrant's competing or support vehicle is involved in an accident or incident at any time during the Event (whether or not during competition), the entrant must provide written details of the accident and witnesses to Race Headquarters at the first opportunity to do so. Participants must handle their own claims with their respective Insurance providers or agents; the organizer may provide relevant assistance and coordination should it be requested.

V. TIMING, SCORING, AND CHECKPOINTS

V. A. Checkpoints

1. Two types of checkpoints are used: timing checkpoints and Observation Checkpoints. You will usually not be told in advance the location of checkpoints.
 - a. Timing Checkpoints (TCs) may be located anywhere along the Race Route, and may be on either side of the Race Route.
 - (1) Each TC has a timing line which is identified by a green Day-Glo TC sign (an example of the sign will be displayed at Registration and/or Rally School). Your arrival time at the checkpoint is recorded when your vehicle's front wheels (front of wheel) cross the timing line from the correct direction.
 - (2) Do not stop at a TC. As you cross the timing line, the previous leg ends and the next leg begins. Your time to start the next leg at the timing line is the same as the time you arrived at the timing line.
 - (3) An entry vehicle must not stop or travel at 5 MPH or less within sight of a TC. An entry vehicle which stops or slows to 5 MPH or less within sight of a timing checkpoint will receive the penalty specified in V.E.3.a.
 - b. Observation Checkpoints may be located anywhere along the Race Route, and may be on either side of the Race Route.
 - (1) Each Observation Checkpoint is identified by a red Day-Glo Observation Checkpoint sign (an example of the sign will be displayed at Registration and/or Rally School). You must stop at an Observation Checkpoint, hand any time allowance requests to the worker, and have your Course Instructions endorsed; failure to stop may result in a penalty or disqualification.
 - (2) An Observation Checkpoint may be used to verify that teams are following the correct route, operating their vehicles safely and legally, and complying with the rules of the Event; to collect Time Allowance Request Forms; or for other purposes deemed appropriate by the organizers. It may issue emergency instructions when necessary.
 - (3) Observation Checkpoints are located so that teams have adequate time to make up the stopping time before the next timing checkpoint; or where timing is not critical, such as within a transit; or additional time may be allotted at the Observation Checkpoint.
 - (4) There may be an official GREAT RACE or VCRA Lunch Gate at the lunch stops. The gate is on the route directed by the Course Instructions. There may be an Observation Checkpoint located near the Lunch Gate, in which case competitors must pass through the gate, stop at the checkpoint, and have their Course Instructions endorsed by an official. Do not stop in the gate unless asked to do so by a GREAT RACE/VCRA official.
 - (5) There is an official GREAT RACE or VCRA Finish Gate or Finish Line at the destination each day; it is on the route directed by the Course Instructions. There may be an Observation Checkpoint located near the Finish Gate or Finish Line. If so, it will collect any time allowance requests and may also give contestants their times or scores for the Stage. This Observation Checkpoint is the final checkpoint for that Stage.
2. A competitor who interferes with checkpoint operations, whether deliberately or otherwise, may be penalized in accordance with V.E.3.b.
3. Checkpoints remain open consistent with V.C.2.b for all vehicles except those known to have dropped out or who have been disqualified.

V. B. Official Time and Mileage

1. Measurement
 - a. Official mileages (from which official times are computed) are measured by vehicles using radial tires and having equipment which measures to a resolution of .01 mile; the Speedometer Calibration Runs may be measured to a resolution of .001 mile. Since competing vehicles have no odometer, official mileages are not used in the Course Instructions.
 - b. Official mileage will approximate statute miles. However, day-to-day variations may occur because of changes in weather, equipment, etc.
2. Calibration
 - a. Each Stage includes a Tire Warm-up at the beginning, followed by a Speedometer Calibration Run. The Tire Warm-

up and Speedometer Calibration Run are free zones (see VII.C.5). ([GREAT RACE only] Teams will also receive a Measured Mile at Registration in Chattanooga.)

- b. The calibration instructions include references to signs and landmarks, and average speeds to be maintained between those signs and landmarks. In Column C of the Course Instructions are the interval times which are required to travel between the signs and landmarks at the assigned speeds, and the cumulative times to those points. Several signs and landmarks are referenced during the calibration run; different speeds may be given between different sets of signs and landmarks. You will be able to "calibrate" your vehicle's speedometer against the official mileage by driving at the stipulated speed and comparing the time you require to travel between the signs and landmarks to the official time. You may attempt to adjust your indicated speeds to match the official times.
- c. Transit times are assigned for the Tire Warm-up and Speedometer Calibration Run. The transit time given for the calibration run is usually slightly longer than the official time given for calibration, to allow adequate time to recover from variations you may encounter. The transit times are included as part of the scoring time.

V. C. Timing and Scoring

1. Timing

- a. Times are in hours, minutes, and seconds.
- b. Official time is Coordinated Universal Time (UTC) referenced to radio station WWV of the National Institute of Standards and Technology or CHU of the National Research Council of Canada. WWV time is available by radio or by telephone: (303) 499-7111.
- c. Time Zones: The time of the time zone at the start of each Stage is used for scoring throughout that Stage, regardless of time zone changes (don't forget, however, to reset your time before the next Stage start if the time zone changes). Time zone information will be given in an Event Supplement and in the Course Instructions.
- d. Times recorded at TCs are resolved to the nearest second.

2. Scoring

- a. Each team will receive a penalty score based on each second their leg time differs from the perfect time computed for that leg.
- b. Missed Checkpoints
 - (1) A vehicle which misses (fails to pass) a checkpoint or passes a checkpoint not under its own power will receive the penalty stipulated in V.E.2.
 - (2) [GREAT RACE only] A vehicle which arrives at a checkpoint more than 30 minutes after the computed perfect time from the Stage Start or restart, except the final Observation Checkpoint of the Stage at the Finish Line, will be scored as having missed the checkpoint, and will receive the penalty stipulated in V.E.2. A vehicle which arrives at a the final Observation Checkpoint of the Stage at the Finish Line more than 1 hour after the computed perfect time from the Stage start or restart will be scored as having missed the checkpoint, and will receive the penalty stipulated in V.E.2.
 - (3) [Regional Rallies only] A vehicle which arrives at any checkpoint more than 30 minutes after the computed perfect time from the Stage Start or restart, including the final Observation Checkpoint of the Stage at the Finish Line, will be scored as having missed the checkpoint, and will receive the penalty stipulated in V.E.2.
- c. A team which does not receive a starting time at one or more TCs (if, for example, a TC is missed) will be scored at the next TC where they are timed, based on that in-time and their previous assigned starting time compared to the combined perfect times for those legs in between.
- d. If a leg is discarded from scoring for unforeseen conditions, any penalties incurred on that leg will be dropped from scoring, except those listed in V.E.3.e, V.F, and VIII.D.
- e. After completion of each Stage, each team's score for that Stage received under V.E is multiplied by the applicable "Age Factor" and the result rounded to the nearest .01 second. The team with the lowest total score is declared the winner of the Stage. Subsequent positions are determined in the same manner. A Cumulative (Championship) Score for the Event is determined for each team in the same manner, using the total scores adjusted as specified in I.H.3 and I.H.5.
- f. Ties are broken by the following procedure:
 - (1) Ties for rally score on each Stage are broken by the following procedure:
 - (a) The older vehicle by scoring year wins the tie and the later model vehicle takes the next position.
 - (b) If a tie still exists, the scores for each leg of the Stage, except legs discarded per paragraph V.G.3, but including any legs discarded by I.H.3, are compared. The team having the lower score on a leg wins that leg; the team winning the greater number of legs wins the tie.
 - (c) If a tie still exists, the scores of the tied teams are compared for each leg of the Stage, in inverse order. The team having the lower score at the first leg where their scores differ wins the tie.
 - (2) Ties for Cumulative (Championship) Event Score are broken by the following procedure:
 - (a) The older vehicle by scoring year wins the tie and the later model vehicle takes the next position.

- (b) If a tie still exists, the scores for each Stage are compared. The team having the lower score on a Stage wins that Stage; the team winning the greater number of Stages wins the tie.
 - (c) If a tie still exists, the scores of the tied teams are compared for each Stage, in inverse order. The team having the lower score at the first Stage where their scores differ wins the tie.
3. Posting of scores
- a. Scores will be posted in the event venue following the end of each Stage and following the end of the Event. Also, individual scores may be given to contestants as they arrive at the finish, or otherwise before they have been posted. When posted scores are complete, this will be noted in the event venue.
 - b. Scores for each Stage are final 30 minutes after complete scores have been posted unless scoring review or problem resolution requests are pending, in which case scores will be final subject to change only based on the resolution of those requests. (See also VI.A.1.c and VI.A.2.a(3).) Once scores are final, prizes will be awarded based on those scores and no further changes will be made for any reason except under V.F.
 - c. Final Event scores will be posted in the event venue following Final Technical Inspection and the resolution of any Formal Problem Resolution requests. These scores are subject to change only for computational errors, and are final one hour after posting.

V. D. Age Factor

To make older vehicles more competitive with the mechanically improved vehicles of later years, the factors listed below will be used to adjust the scores as described in V.C.2.e.

<u>Model Year</u>	<u>Factor</u>						
1970+	1.000	1950	0.900	1930	0.800	1910	0.600
1969	0.995	1949	0.895	1929	0.790	1909	0.590
1968	0.990	1948	0.890	1928	0.780	1908	0.580
1967	0.985	1947	0.885	1927	0.770	1907	0.570
1966	0.980	1946	0.880	1926	0.760	1906	0.560
1965	0.975	1945	0.875	1925	0.750	1905	0.550
1964	0.970	1944	0.870	1924	0.740	1904	0.540
1963	0.965	1943	0.865	1923	0.730	1903	0.530
1962	0.960	1942	0.860	1922	0.720	1902	0.520
1961	0.955	1941	0.855	1921	0.710	1901	0.510
1960	0.950	1940	0.850	1920	0.700	1900	0.500
1959	0.945	1939	0.845	1919	0.690		
1958	0.940	1938	0.840	1918	0.680		
1957	0.935	1937	0.835	1917	0.670		
1956	0.930	1936	0.830	1916	0.660		
1955	0.925	1935	0.825	1915	0.650		
1954	0.920	1934	0.820	1914	0.640		
1953	0.915	1933	0.815	1913	0.630		
1952	0.910	1932	0.810	1912	0.620		
1951	0.905	1931	0.805	1911	0.610		

V. E. Penalties

1. Timing penalties
 - a. Each second early or late at a timing checkpoint (TC) compared to the computed perfect time 1 Second
 - b. Maximum late penalty under V.E.1.a (unless V.C.2.b applies) 2 Minutes
 - c. Maximum early penalty under V.E.1.a 5 Minutes
2. Penalties for missing checkpoints (or being more than 30 minutes or 1 hour late) (see V.C.2.b)
 - a. Missing a TC (or being more than 30 minutes late) (see V.C.2.b) except the final TC of a Stage 3 Minutes
 - b. Missing the final TC of a Stage (or being more than 30 minutes late) (see V.C.2.b) DNF or FNS
 - c. Missing an Observation Checkpoint (or being more than 30 minutes late) (see V.C.2.b), except the final Observation Checkpoint of a Stage 3 Minutes
 - d. [GREAT RACE only] Missing the final Observation Checkpoint of a Stage (or being more than 1 hour late) (see V.C.2.b) DNF or FNS
 - e. [Regional Rallies only] Missing the final Observation Checkpoint of a Stage (or being more than 30 minutes late) (see V.C.2.b) DNF or FNS
3. Other penalties
 - a. Stopping or traveling 5 MPH or slower within sight of a timing checkpoint 3 Minutes
 - b. Blocking a checkpoint in-line (intentionally or not) or interfering with checkpoint operations

-5 Minutes, DNF, or disqualification
- c. More than two crew members in a vehicle see II.D.4
- d. Support vehicle violation..... see II.E.8
- e. Failure to stop at a Stop Sign DNF
- f. [GREAT RACE only] Being carried on any trailer for any part of a Stage DNF
- g. [GREAT RACE only] A vehicle which is towed or pushed by another vehicle on any part of a Stage, except to receive assistance in starting, getting back on the road, or leaving a dangerous location, will receive a 2 minute penalty.
- h. [GREAT RACE only] A vehicle that leaves a promoted Lunch Stop or Pit Stop earlier than 5 minutes before its scheduled departure time, or a Special Display Area (see VIII.1,2) before the specified time, will receive a warning made public to other teams for the first offense, and penalties of 10 seconds for the second offense, 1 minute for the third offense, and referral to section VI.B.3 of the Event Regulations (unsportsmanlike conduct) for the fourth and subsequent offenses.
- 4. [GREAT RACE only] Teams receiving a DNF under V.E.2.b, V.E.2.d, or V.E.2.e, but finishing the Stage under their own power will be scored as FNS (Finished No Score). FNS and DNF are equivalent for scoring purposes.
- V. F. Disqualification from Event: Ineligibility for Posted Awards
 - 1. If a contestant or support crew member is judged by the Executive Committee to be guilty, or cited or given written warning by a law enforcement agency, of any of the following offenses, that team shall be automatically disqualified:
 - a. Driving while intoxicated or under the influence
 - b. Consuming alcoholic beverages or illegal controlled substances while participating
 - c. Dangerous or reckless driving, which may include speeding
 - 2. If a contestant or support crew member is judged by the Executive Committee to be guilty of detrimental, dangerous, or unsportsmanlike conduct, that team shall be disqualified or otherwise penalized as specified in VI.B.3.
 - 3. DNS Stage 1
 - 4. For causes stipulated in I.H.6, II.E.8, V.A.1.b(1), V.E.3.b, VI.B.3, VIII.B.1, VIII.B.2, VIII.C.3, and VIII.D.
 - 5. The following will make an entry ineligible for Championship (cumulative) awards; they are still eligible for Stage Awards and Ace Awards: DNF or FNS the final Stage of the Event
- V. G. Course Operations
 - 1. A lead car will precede the race to ensure that the Race Route is clear and correct, TCs are in place and accurately located, and to post emergency signs if needed.
 - 2. Sweep vehicles will follow the race to verify route integrity, close checkpoints, check watches, and provide assistance to contestants when possible.
 - 3. The Executive Committee at their sole discretion may discard a leg from scoring if it feels that conditions or problems on that leg rendered it unsuitable for competition. Such a decision will be posted in the evening event venue and at the morning start location. The Executive Committee's decision to discard a leg is not subject to claims by contestants.
- V. H. Time Allowance Requests
 - 1. Delays on the route: If you are delayed on the instructed route by circumstances beyond your control, such as blockage of the route by a train or need to assist at the scene of an accident, and if the circumstance is witnessed by another contestant or GREAT RACE/VCRA official, you may request a time allowance using the procedure described in V.H.3. Mechanical failure (flat tire or other vehicle failures) and personal failure are not grounds for time allowance requests.
 - 2. Emergency Reduced Speeds
 - a. If you should encounter conditions described in VII.E.3 which make travel at the assigned speeds hazardous, you may elect to use reduced speeds which will allow you to travel safely. You may resume the assigned speeds at your discretion.
 - b. Teams competing in vehicles with two-wheel brakes may elect to use emergency reduced speeds when they believe that conditions, such as mountain grades, make travel at assigned speeds hazardous. Such requests must include the phrase "two-wheel brakes".
 - c. Such reduced speeds will result in your leg time being greater than the official leg time; you must determine (or estimate) the amount of additional time you used because of the reduced speeds and request an allowance using the procedure described in V.H.3. If the delay occurs during more than one leg, a separate time allowance request must be submitted for each leg.
 - d. This provision is for the purpose of improved safety in case of unusual or changed conditions which were not anticipated in the Course Instructions. Each request will be considered on its merits. The Time Allowance Committee may reduce or refuse a request if the claimed conditions are not verified by another contestant or GREAT RACE/VCRA official; if the time requested exceeds that which appears reasonable based upon the emergency conditions; or if the Committee feels the allowance requested is not justified by the conditions encountered or has not been made in good faith (see VI.B.3).
 - 3. Your request must be in writing. It must include a description of the circumstances causing the delay, the location, the leg

- and instruction numbers on which the delay occurred, and the vehicle numbers or names of contestants or GREAT RACE/VCRA officials who also witnessed the situation. The time allowance requested may be any amount of time in multiples of 10 seconds (e.g., 0m10s, 0m20s, 4m50s), not to exceed 29 minutes 30 seconds. It must be handed in immediately when you arrive at the first Observation Checkpoint after the delay occurs, before you receive a score sheet.
4. The Time Allowance Committee will review your request and, if allowed, the time allowance will be subtracted from your time for the leg in which the delay occurred. The Time Allowance Committee consists of the Director of Competition and two other members of the competition staff, and others they may designate. The Committee may consult with other staff members, contestants, and the party submitting the request, as they deem appropriate or necessary.
 5. If you are delayed by conditions beyond your control, we expect you to attempt to make up the time. In considering whether to allow a time allowance request, the Time Allowance Committee will consider the distance from the delay to the timing checkpoint and whether some or all of the lost time could have been made up. Give information such as: "Delayed 0m45s by a farm tractor. Made up 0m25s. Request 0m20s." As always, witnesses should be listed when possible, especially for delays over 1m00s. If you are attempting to make up time and encounter a timing checkpoint, you may lose time at 5 MPH (or faster) to bring your delay request to a multiple of 0m10s. Remember, your time allowance request may or may not be allowed; it is in your interest to attempt to make up lost time safely.
 6. Abuse of these procedures will be subject to penalty under VI.B.3.

QUESTIONS AND PROBLEMS

VI.

VI.

A. Problem Resolution—Executive Committee

1. INFORMAL CONSIDERATION
 - a. The GREAT RACE/VCRA staff strives to make this an enjoyable and error-free Event. However, unanticipated questions and problems can arise. We will attempt to answer questions and resolve problems as quickly, accurately, and fairly as possible.
 - b. The staff encourages discussion with them of any questions or problems on an informal basis. Usually, this will result in a prompt answer or resolution; often, the officials will already be aware of a problem and will have taken appropriate actions.
 - c. If you believe an error has been made in your score, you should submit a written request for review to the Executive Committee. The request must be submitted no later than 30 minutes after (a) you are given your individual score or (b) complete scores have been posted, whichever is earlier. The request must include the checkpoint times you recorded and your calculations of your score. However, scoring review requests for timing discrepancies of 2 seconds or less will not be considered.
2. FORMAL PROBLEM RESOLUTION: If you encounter a question or problem which is important to your performance on the Event, you may submit a written request to the Executive Committee, to assure that it will receive formal consideration.
 - a. Formal Problem Resolution Requests
 - (1) The request must be submitted on an official Problem Resolution Request form supplied by Great Race or VCRA. Only one question or problem may be submitted on each Problem Resolution Request form.
 - (2) Indicate the nature of the problem, such as errors in the route, Course Instructions, Event Regulations, scoring, etc. Describe fully and carefully the question or problem. Provide information which will be necessary for understanding the problem; e.g., instruction numbers, Event Regulations, leg numbers, names of persons, route locations, scoring, etc.
 - (3) Questions concerning scoring of a Stage must be submitted no later than 30 minutes after (a) you have been given your individual score or (b) complete scores have been posted, whichever is earlier. However, scoring review requests for timing discrepancies of 2 seconds or less will not be considered.
 - (4) Any other problems occurring on a Stage must be submitted within one hour after you arrive at the final checkpoint of that Stage, or within one hour after the final checkpoint has closed, or within 30 minutes after complete scores have been posted, whichever is earlier.
 - (5) In filing a Problem Resolution Request, the contestant agrees to the addition of 30 seconds to his/her total Stage score.
 - b. Problem Resolution Requests will be reviewed by the Executive Committee. The Executive Committee consists of the Event Director and the Director of Competition, and others they may designate. The Committee may consult with other staff members, contestants, and the party submitting the request, as they deem appropriate or necessary.
 - c. At its sole discretion, the Event Director or Director of Competition may remove the 30 seconds which was added to the contestant's score if the Committee considers the Problem Resolution Request to be sufficiently meritorious.
 - d. The decision of the Executive Committee may be conveyed informally or in writing to the party submitting the request.

VI.

B. Executive Committee Decisions

1. By entering this Event, each contestant, entrant, and their associates agree that the decisions of the Executive Committee and the Time Allowance Committee are conclusive, final, and binding on all parties, and are not subject to appeal. Each further agrees not to pursue any legal action against the Event Director, Director of Competition, or the Executive Committee collectively; the Time Allowance Committee; Great Race Company; VCRA; or their principals, employees, volunteers, sponsors, agents, or staff members in connection with the resolution of any problem.
2. If, in the opinion of the Executive Committee, a contestant has submitted a Problem Resolution Request without a valid basis, or in bad faith, or which is not in the Spirit of the Event, the Committee may penalize that contestant for unsportsmanlike conduct as specified in VI.B.3.
3. If a contestant or support crew member is judged by the Executive Committee to be guilty of detrimental, dangerous, or unsportsmanlike conduct, one of the following penalties will be assessed:
 - a. The addition of up to 2 minutes to the team's rally score for the Stage
 - b. DNF for the Stage
 - c. Disqualification

VII.

INSTRUCTIONS

VII.

A. Event Regulations

1. [GREAT RACE only] These Regulations will be posted at www.greatrace.com not later than January 31.
2. [Regional Rallies only] These Regulations will be posted at www.greatrace.com and www.vintagecarrally.com not later than 30 days before the Event.
3. Questions concerning these Event Regulations may be addressed to:
 Great Race and Great Race Regional Rallies: info@greatrace.com or 800-251-6336 extension 209
 VCRA: rgard@groveemail.com or 918-801-2406

VII.

B. Course Instructions

1. Description
 - a. The Course Instructions are a series of instructions which are used to follow the Race Route. They are numbered in ascending numerical order, and are to be executed in that order.
 - b. Some Course Instructions might be letter/numbered (3a, 3b, etc.) or a number might be marked "omitted". This may be done to facilitate last-minute changes; the order of execution will always be obvious.
2. Availability
 - a. With the possible exception of Stage 1, one set of Course Instructions for each Stage will be available to each competing team each day near the Stage start, exactly 45 minutes before the official time for the team to start the Stage. The time and location for each Stage start (after Stage 1) will be found at the end of the Course Instructions for the previous Stage. Each team's official starting time is determined by adding their starting position (see III.A,B,C) in minutes to the official Stage start time.
 - b. For Stage 1, special provisions may be made for issuing Course Instructions; if so, this will be noted in an Event Supplement.
 - c. The contestant must show his/her identification tag with the vehicle number in order to receive the Course Instructions. At this time the contestant may be required to draw for the next Stage starting position.
3. Using the instructions
 - a. In general, each instruction will direct an action to be taken, such as a turn or a speed change, or a reference point to be observed such as a sign or landmark. You are to execute each instruction at the first opportunity to do so. You must complete each instruction before you can consider the next instruction for execution. An instruction is completed when the last speed change specified has been completed. If there is no speed change indicated, then the instruction is completed when the sign, landmark, or intersection has been passed.
 - b. It is recommended that you always be aware of at least the next two instructions so that you won't pass an execution point while trying to read the next instruction. If you don't know your next instruction, stop and read it before proceeding.
 - c. [GREAT RACE and Great Race Regional Rallies only] The GRID™ (GREAT RACE International Instruction Design) format will be used. Each instruction will consist of five columns.
 - (1) The first column contains the instruction numbers.
 - (2) The second column (labeled "A") contains CAMEO™ images or diagrams of signs, landmarks, and road and intersection configurations. The CAMEO diagram of an intersection will indicate the road on which you are approaching the intersection with a dot, and the road on which you are to leave the intersection with an arrow. The route that you are to follow through the intersection is represented by a bold line from the dot to the arrow. Thin line(s) in the CAMEO diagram of the intersection represent road(s) not taken.
 - (3) The third column (labeled "B") contains symbols specifying the tire warm-up, the speedometer calibration run,

transits, free zones, pit stops, refueling stops, lunch stops, etc.

- (4) The fourth column (labeled "C") contains assigned average speeds and timing information. Time of day for starts and restarts is represented with colons separating hours, minutes, and seconds (e.g., 7:30:00 indicates a time of day). Interval times for the tire warm-up, the speedometer calibration run, transits, pauses, timed speed changes, etc., are represented as follows: 3h15m00s indicates an interval time of 3 hours 15 minutes; 0m45s indicates an interval time of 45 seconds. Interval times in parentheses are advisory, but not official, e.g., (35m00s). Other numbers in this column represent assigned average speeds in miles per hour, e.g., 45 MPH.
 - (5) The fifth column (labeled "D") may contain additional information as part of the Course Instruction to assist you in following the course. It may have information such as "Comes quick", "Look sharp", "First paved road", or other helpful information.
- d. [VCRA Regional Rallies only] Tulip Diagrams will be used. Each instruction will consist of five columns.
- (1) The first column contains the instruction numbers.
 - (2) The second column (labeled "A"), if used, contains the sign at which the instruction is to be executed. After executing the previous instruction, the first sign that matches the sign depicted in column A is used to execute this instruction. Every attempt will be made to duplicate the sign or the principal text of the sign for ease of identifying at road speeds
 - (3) The third column (labeled "B") always contains a Tulip Diagram. A Tulip Diagram is a visual picture taken from overhead that depicts your vehicle as a large black dot, always at the bottom, and the direction of travel indicated by a bold line ending in an arrowhead. It will also contain a sign locator symbol with the location of the sign depicted in Column A, either on the left side of the road, the right side of the road, or overhead (center). If there is no sign in Column A then the Tulip Diagram is at an intersection or landmark and the instruction is executed at the center of the intersection or landmark. If the direction of travel indicates a turn, the instruction is executed at the apex, or center, of the turn.
 - (4) The fourth column (labeled "C") contains assigned timing information and average speeds. Time of day for starts and restarts is represented with colons separating hours, minutes, and seconds (e.g., 7:30:00 indicates a time of day). Interval times for the tire warm-up, the speedometer calibration run, transits, pauses, timed speed changes, etc., are represented as follows: 3h15m00s indicates an interval time of 3 hours 15 minutes; 0m45s indicates an interval time of 45 seconds. Interval times in parentheses are advisory, but not official, e.g., (35m00s). In addition to time, an approximate distance in miles may be provided in a transit instruction to aid in the calculation of speed for the transit. Other numbers in this column represent assigned average speeds in miles per hour, e.g., 45 MPH. A clear reference point will be given for each speed change. If there is a sign referenced, the speed change will be executed at the sign. If there is no sign referenced, the speed change will be executed at the center, or apex, of the corner or reference diagram. Speeds are indicated by CAS xx MPH (Change Average Speed to or Continue Average Speed of xx miles per hour). If speeds are preceded by a time, continue at the previously assigned speed for the specified time, then change to the new assigned speed. There may be multiple CAS commands separated by times in a single instruction.
 - (5) The fifth column (labeled "D") may contain additional information as part of the Course Instruction to assist you in following the course. It may have information such as "Comes quick", "Look sharp", "First paved road" or other helpful information.
- e. Examples of the GRIID instruction format are given in the attached Example Rally.
- f. Information contained in parentheses is helpful or informative but not essential.

VII. C. Following the Race Route

1. In general, the Race Route will follow principal roads and interstate highways. At each intersection, you will execute the active instruction if it applies. If no instruction applies at an intersection, you will continue on the obvious principal road. Do not take an exit from an interstate highway or limited-access highway without an instruction. At some intersections you may have to follow the principal road as indicated by curve warning signs, painted center stripes or edge-line road markings, stop sign or yield sign placement, straight as possible, etc. These situations will be obvious, and should cause no confusion. If you are to leave the obvious principal road, or if there might be any doubt about which way you are to go, you will be given an instruction.
2. The Course Instructions will frequently direct actions which are redundant with the obvious principal road. If you are to turn at an intersection, for example, you may be given an instruction even if it is redundant with the route you would have followed without the instruction. This is to ensure that all teams will remain on course.
3. You must, of course, remain alert to the reference and execution points for the instructions. Since there may be extensive distances not requiring route-following instructions, some instructions will reference signs or landmarks only to provide confirmation points.
4. The Race Route will never enter a private road, driveway, parking lot, unpaved road, or dead-end road without an

instruction, and such roads will sometimes be omitted from CAMEO or Tulip Diagrams or shown as a dashed line (a dead-end road is identified by a sign reading DEAD END, NO OUTLET, NOT A THROUGH STREET, etc.). The route will not make illegal turns or illegal entries (such as against one-way traffic). If you find yourself at an intersection where you cannot proceed without an instruction and none seems to apply, you may be off-course.

5. Free Zones

- a. A free zone is a portion of the timed course where no timing checkpoints will be encountered. This allows the team to proceed on that portion of the Race Route without concern about encountering a timing checkpoint.
- b. A free zone may be instructed in the Course Instructions.
- c. There will be a 2-minute free zone after the end of each transit. Parking is sometimes limited at the end of a transit; this will allow vehicles to park along the Race Route after the end of transit.

VII. D. Signs and Landmarks

1. Signs

- a. When a CAMEO or Tulip Diagram contains words, letters, numbers, or symbols enclosed in a rectangle, diamond, circle, etc., the referenced matter is from the text on a sign. While spelling is supposed to be exact, there are no "traps" based on spelling. (For example, if the instruction references 'Thibideaux' and you find a sign reading 'Thibedeaux', that is probably the execution point for the instruction.)
- b. Signs will be found on the right or left of your route or overhead. The CAMEO or Tulip Diagram referencing the sign will show its position relative to the Race Route.
- c. Signs painted on road surfaces, vehicles, or other temporary surfaces will not be used. You will not have to look back to read a sign.
- d. Referenced text from a sign may be in full or in part; if in part, it will be a principal part of the sign. Referenced text will be continuous, without omitting intervening words, letters, or numbers. For example, a sign reading "Quick Stop—5 Miles Ahead" would not be referenced as "Stop Ahead". However, if a portion of the text of a referenced sign is significantly smaller than the rest, that portion may be omitted in the interest of readability at road speed. For example, we might omit "Tennessee" when referencing the number on a Tennessee highway sign; but we will usually reference the "Interstate" from the familiar blue Interstate Highway shield.
- e. There may be multiple signs on one support. Multiple signs on a single support may be depicted as one sign. Also, one or more of the signs may be depicted; in this case the most prominent sign(s) will be used in a way that unambiguously identifies the sign(s) to be used.
- f. Referenced Speed Limit signs are those which apply to the Race Route.

2. Landmarks: Landmark locations will be shown in the CAMEO or Tulip Diagram. Landmarks will either be obvious from their usual meaning, or will be identified by a sign, or will be defined in the Glossary.

3. Emergency Signs may be erected on the Race Route when officials feel additional information may be needed to assist contestants because of unexpected or changed conditions. Such conditions might include road construction; missing, duplicate, incorrect, or redundant signs or landmarks; a possibly confusing situation; and weather or traffic conditions. Sample emergency signs will be displayed at Registration and/or Rally School. Though Emergency Signs will usually be easy to read, you might find it necessary to stop to read one. The signs will be Day-Glo pink, red, yellow, or orange with the letters GR or VCRA, and instructions or other information such as:

- a. An instruction number; the instruction is to be executed at that point.
- b. An arrow, indicating the direction to follow the Race Route
- c. An "I": Ignore the sign or landmark on which the emergency sign has been placed.
- d. A speed change, pause, start of transit, etc.
- e. "End Leg": The leg has been canceled and will not be scored. Continue on course in a safe manner at approximately assigned speeds. The next leg, if any, will begin at the next time-of-day restart you come to.

VII. E. Average Speeds

1. Assigned Speeds

- a. Required average speeds will be stated in the Course Instructions. A clear reference point will be given for each speed change. The speed(s) assigned in an instruction will appear in Column C in miles per hour (MPH). On highways, the required average speed will often be 50 MPH.
- b. A required time for traveling between two points may sometimes be given in lieu of a required average speed. This is called a transit, and may be used for pit stops, lunch stops, passing through congested areas, etc.
- c. If you should encounter a portion of the Race Route where posted speed limits are below the assigned average speed, there should be adequate opportunity to recover the lost time before the next timing checkpoint.
- d. In case of unexpected changes of speed limits or route, as might be caused by road construction or detours, appropriate emergency signs may be erected by the lead car. Such signs may direct speed or route changes. Any such changes will be adjusted in scoring.

2. Speed Changes

- a. There are two types of speed changes. The first type is executed at a specific referenced point on the route; this location will be identified as a sign, intersection, or landmark. The second type of speed change is executed after a specified time interval. Both types of speed changes are specified in instruction Column C.
 - b. When a speed change references only a sign or landmark, it is executed when the front tires of the vehicle passes (comes even with) the sign or landmark.
 - c. Speed changes at intersections will occur at a sign (such as a stop sign) if there is one referenced in Column A of the CAMEO or Tulip diagram. Otherwise, speed changes at intersections will occur at the center of the intersection or the apex of the turn. This will normally be explained in greater detail at rally school.
 - d. Timed speed changes occur after the time interval specified in Column C has elapsed. The time interval begins in one of two ways: If the time interval is preceded by a speed change, the interval starts at the same place as that speed change. If the time interval is the first item specified in Column C (this is called a delayed speed change) then the interval begins at the point specified in VII.E.2.b or VII.E.2.c
3. Emergency Reduced Speeds: In case of inclement weather, fog, poor road conditions, extraordinary traffic, or other unexpected conditions, a team may elect to use reduced speeds. See V.H.2.

VII. F. Official Times

1. During Speedometer Calibration Runs, there will be two official times in a box in Column C; these times may be given to the 1/10 of a second. The first time will be the interval time to the instruction from the previous instruction for which a time was given; the second time will be the cumulative official speedometer calibration time to that point; e.g.,

9	1m08.4s 12m07.1s
---	---------------------

10

11

3m41.7s 15m48.8s

3 minutes 41.7 seconds is the time required to travel the official distance from instruction 9 to instruction 11 at the current assigned speed. 15 minutes 48.8 seconds is the official time from the start of the Speedometer Calibration Run to instruction 11.

2. An asterisk (*) in the interval time column indicates that the next interval time is from this instruction.
3. Since vehicles will not have odometers to refer to, instructions will sometimes use time information in Column D to provide helpful information: e.g.,

Approximately 12m00s after previous instruction

The time given is not the official time, but is the approximate time which will be required to reach the execution point from the previous instruction averaging the assigned speed. The official time will probably be more or less than 12 minutes.

VIII. TECHNICAL INSPECTION, REINSPECTION, AND IMPOUNDMENT

VIII. A. Technical Inspection

Each entry vehicle and all rally equipment (see II.H) must pass Technical Inspection by the GREAT RACE/VCRA Technical Committee prior to the start (see Schedule of Events).

VIII. B. Technical Reinspection

1. Necessary repairs, maintenance, modifications, and alterations to the competing vehicles within "The Spirit of The Event" will be allowed during the running of the Event. Any repairs, modifications, or alterations to a competing vehicle made after the official technical and safety inspection prior to the start of the Event must be noted in writing to the Chief Technical Inspector or his representative prior to the next Stage start after such repairs or modifications are made, and are subject to a reinspection. Failure to do so may result in disqualification.
2. All competing vehicles are subject to technical reinspection at any time during the Event. Upon request by a member of the Technical Committee, an entrant must make his/her competing vehicle available for reinspection immediately. Failure to do so will result in disqualification.
3. Each entry vehicle is subject to a final technical reinspection at the finish of the Event to be considered a finisher of GREAT RACE, a Great Race Regional Rally, or a VCRA Regional Rally.

VIII. C. Impoundment

1. Special Display Areas (also referred to as parc fermés) may be designated in the start city, in overnight cities, and in the finish city; and hours may be specified during which entry vehicles must be in the Display Areas.
2. Once an entry vehicle has passed its initial official Technical Inspection, entry vehicles must not be removed from the

Display Area during these specified periods without specific permission from the Event Director or the Chief Technical Inspector.

3. Great Race or VCRA reserves the right to reinspect any competing vehicle at any time and subsequently may disqualify or reclassify vehicles that have been modified or misrepresented. Such reclassification is retroactive to Stage 1. Failure of a contestant to cooperate fully in a complete examination of his/her vehicle may result in disqualification.

VIII. D. Violation of any portion of Part VIII may result in disqualification.

IX. VEHICLES

IX. A. Definition

1. [GREAT RACE only] Vehicle entries must have been manufactured in 1969 or earlier. Generally, any vehicle manufactured in 1969 or earlier as originally manufactured and/or modified in its year of manufacture is eligible for entry. A Hot Rod or Muscle Car that because of its power train, suspension, equipment, or other modifications would be considered a post-1969 vehicle for purposes of applying an age factor may be accepted for entry on an individual review basis based on Great Race's determination that it complies with the spirit of encouraging the participation of vehicles whose body styles are 1969 and earlier.
2. [Regional Rallies only] Vehicles of any model year
3. [GREAT RACE only] Vehicles may be:
 - a. As originally manufactured
 - b. As modified in their era of manufacture (documentation required)
 - c. Custom, one-off, vehicles of historical significance, Hot Rods, and Muscle Cars that are considered to be within the Spirit of the Event may be accepted, or rejected, for entry on an individual review basis.
4. [GREAT RACE only] Re-Bodied Vehicles: Reasonable re-creations of historical vehicles may be accepted for entry. A vehicle manufactured in 1969 or earlier may be re-bodied to resemble a pre-1970 racer, or a pre-1970 one-off, rare, or limited-production vehicle. It is not possible to address all the requirements here, so if there is any doubt, request clarification from our Technical Committee.
 - a. All vehicle documentation is the entrant's responsibility. Documentation of an actual vehicle, including pictures and specification sheets, is ideal. If actual pictures and specification sheets are not available, submit scale drawings to our Technical Committee of all components of the proposed vehicle that are to be reconstructed, including the side, front, and rear of the body.
 - b. There are a number of sources for vehicle specifications, including the National Automobile Museum in Reno, Nevada; the Henry Ford Museum in Southfield, Michigan; and the Sloan Museum in Flint, Michigan.
 - c. Maintain vehicle integrity; e.g., if it's a Ford, use all Ford parts, including chassis, drive train, and accessories. Historical documentation is required to allow a variance here.
 - d. Construct the vehicle as it would have been constructed in its era, with materials and procedures that are of that era. E.g., don't use extruded aluminum; the material is permissible but the extrusion technology is inappropriate.
5. Vehicles must be in excellent road-worthy condition and present a good appearance.

IX. B. Required

1. Unless otherwise stipulated in these regulations, mechanical components of the competing vehicles must be of the same make, model, and vintage as originally delivered by the manufacturers unless otherwise stated in these Regulations. Performance and aftermarket equipment for modification of the engine and drivetrain is permitted if it was available during the year of manufacture of the vehicle. The use of a performance component of a later year than the manufacture of the vehicle will cause the team to be scored based upon the year of manufacture of that component. The burden of proof of the year of availability of performance components is upon the entrant. [GREAT RACE only] With the exception of Hot Rods and Muscle Cars allowed by IX.A.1, performance equipment developed after 1969 is prohibited.
2. All vehicles must have the required equipment for lawful operation on public roads and highways in their State/Province/Country of registration.
3. [GREAT RACE only] Windshields, when applicable, must be of laminated safety glass. Side windows, when applicable, must be of safety glass.
4. At least two working tail lights, two working stop (brake) lights, and two red reflectors on the rear of the vehicle, one on each side
5. Electrical lighting, legally acceptable for night driving
6. Electrical turn signals, front and rear
7. Operating shock absorbers at each wheel if the vehicle was originally manufactured with shock absorbers. If the vehicle was not manufactured with shock absorbers and is considered safe and roadworthy by our Technical Committee, operating shock absorbers are recommended but not required.
8. Lap seat belts are required for both driver and navigator.

9. One operational fire extinguisher, dry chemical, at least 2½ pounds A/B/C.
10. Miscellaneous equipment: This equipment is required for Great Race events and recommended for VCRA Regional events.
 - a. One first aid kit
 - b. One tow rope or chain, at least sixteen feet in length
 - c. Emergency flares or reflectors
 - d. One gallon container of drinking water
 - e. One flashlight

IX. C. Authorized Modifications

1. The authorized modifications listed below are subject to review by Great Race or VCRA. These modifications are allowed in the interest of safety, reliability, and the preservation of historical vehicles. All modifications must be done in good taste, hidden from view where possible, and should not detract from the original appearance of the vehicle. All modifications must be noted on the Entry Form.
2. Any part of the vehicle damaged by accident, rust, or wear may be replaced by one of identical design and material.
3. Replacement sub-assemblies, such as ignition coils, magnetos, plug wires, fuel pumps, and wiper blades may be replaced by normally available units identical in function to the original parts.
4. Internal engine modifications and engine repairs may utilize parts and materials of unrestricted origin provided the part or parts used for replacement are identical in purpose to the part or parts replaced and do not alter the outward appearance of the original engine; e.g., aluminum pistons.
 - a. An engine of vintage other than original equipment may be used if it was considered a factory replacement. Original type cylinder head(s) and manifold(s) must be used.
 - b. An engine other than original vintage may be used on an individual review basis, with written approval of our Technical Committee required. IX.B.1 will apply.
5. The addition of auxiliary oiling, filtering, pressurization, and/or lubrication systems
6. The addition of an oil filter
7. Carburetors: Carburetors must comply with IX.C.4.a. Vehicles of Model Year 1948 and earlier may use any carburetor manufactured before 1949. Vehicles of Model Year 1949 through 1969 may use any carburetor manufactured before 1970. Hot Rods and Muscle Cars allowed by IX.A.1 may use any carburetor.
8. Electric fuel pumps and pressure regulators are permissible.
9. Fuel capacity may be increased.
 - a. Auxiliary tank(s) may be added provided they are not in the passenger compartment, meet Federal and State/Provincial/National requirements, are properly vented, and do not detract from the appearance of the vehicle. Auxiliary tanks are allowed only under the vehicle and/or in the trunk.
 - b. Gasoline containers are not allowed outside the vehicle (on running boards, bumpers, etc.). All gasoline containers must meet applicable federal safety standards.
 - c. At refueling stops, racers may choose to refuel at other locations. Great Race or VCRA takes no responsibility for any fuel used by race cars.
 - d. A FUEL RANGE OF 200 MILES IS STRONGLY RECOMMENDED.
10. Magneto or point-coil ignition systems are allowable. Breaker points may be replaced with an electronic pick-up.
11. Electrical charging systems (6- or 12-volt) including generator/alternator and battery may be added.
12. Drivetrain
 - a. Any friction clutch assembly may be used.
 - b. Transmission must be "original type" and year model and may be modified internally to improve reliability and performance. Transmissions other than original will be accepted or rejected on an individual review basis, in which case IX.B.1 applies.
 - c. Any add-on overdrive unit is permitted, along with drive shaft, U-joint, and frame alterations required to install the overdrive unit only.
 - d. The rear axle housing shall be original or a replacement that has the appearance and function as close to the original as possible and cleared by the Technical Committee or the Executive Committee.
 - e. Gear ratio change is permitted, but IX.B.1 applies.
13. Brakes
 - a. Disc brakes are allowed on cars/trucks only if original equipment. Disc brakes are allowed on motorcycles.
 - b. Conversion from mechanical to hydraulic brakes and the addition of vacuum assist units is permissible. The modifications that are required to the front axle and rear axle housing to convert to hydraulic brakes are permissible but must be cleared with the Chief Technical Inspector or the Executive Committee.
 - c. Conversion from two-wheel brake system to four-wheel brake system is permissible.
 - d. [GREAT RACE only] On an individual review basis and for reasons of safety, with the exception of Hot Rods and Muscle Cars allowed by IX.A.1, for the purpose of adding front brakes, the front axle assembly may be of any model

year manufactured before 1970. The replacement axle should closely resemble the original in appearance and form (e.g., tubular for tubular; I-beam for I-beam). The modifications must be done in a manner that allows the vehicle to be easily returned to its original condition.

14. The addition of modern hydraulic shock absorbers is permissible.
15. The addition of modern vacuum or electric windshield wipers is permissible.
16. The addition of a self-starter is permissible.
17. Headers, dual exhaust pipes, and "cutouts" are permissible.
18. Cooling systems
 - a. Auxiliary electric fans are permissible if located under the hood.
 - b. Auxiliary water pumps and radiators are permissible but must be concealed.
 - c. Pressurized radiator and/or overflow tanks are permissible.
19. Tachometers are prohibited. If the vehicle had an original tachometer it must be disconnected and will be sealed at Technical Inspection.
20. Any steering gear assembly that appears in likeness to the original, mounts in the same location, and performs the same function is permissible.
21. Speedometer: Each competing vehicle may have one speedometer as defined in II.H.1.h.
22. Tires: Radial tires are allowed, but they must be mounted on wheels in compliance with IX.C.23.
 - a. A 1950 or newer vehicle may use radial tires with no adjustment to Age Factor.
 - b. A 1949 or older vehicle may use Bias Ply or "Nostalgia" style Radial tires (as industry defined) with no adjustment to Age Factor.
 - c. A 1946 through 1949 vehicle with tires other than as defined in IX.C.22.b will be scored as a 1950 vehicle.
 - d. A 1945 or older vehicle with tires other than as defined in IX.C.22.b will receive a 5-year adjustment to a newer Age Factor (example: a 1937 model year vehicle with other radial tires is scored as a 1942).
23. Wheels: If other than original equipment, replacement wheels must be of the era of the vehicle in function and appearance, and cleared with the GREAT RACE/VCRA Technical Committee in writing. Replacement Wheels must not have a variance of more than 2 inches in diameter from the original equipment and must retain the appearance of the original wheel.

X.

GLOSSARY

BLINKER	A warning signal consisting of red or yellow lights operating in an on-off sequence. The blinker may or may not be operating. See instructions #15 and #31 in the example rally.
CATTLE GUARD	A wooden or metal grate across a road, intended to prevent the passage of cattle. See instruction #34 in the example rally.
DNF	<u>Did Not Finish</u>
DNS	<u>Did Not Start</u>
FNS	<u>Finished No Score</u>
FREE ZONE	A portion of the race in which there are no timing checkpoints. See instructions #25 and #28 in the example rally.
I	When used on an Emergency Sign, "Ignore"
I-	Interstate (as in I-10). See instructions #8 and #25 in the example rally.
LEG	A part of the Race Route extending from one timing checkpoint to the next, or from an assigned start or restart point to the next timing checkpoint
MERGE	Move in the direction indicated into another traffic lane.
MPH	Mile(s) per hour
RAILROAD CROSSING	The intersection of a road with a railroad track. See instruction #16 in the example rally.
PAUSE	To delay a specified time. The pause time is added to the time for the leg. See instructions #15 and #33 in the example rally.
STAGE	One day's competition
STOP SIGN	An official octagonal sign which requires traffic to stop. See instructions #4 and #33 in the example rally.
TC	Timing Checkpoint
TRAFFIC LIGHT	A signal light alternating red, yellow, and green controlling traffic at an intersection. It may be operating as a blinker or not operating. See instruction #2 in the example rally.
TRANSIT	A portion of the race in which there are no timing checkpoints and for which no specific speed is assigned. A time for passage or restart time from the end of the transit will be given. See instructions #10, #12, #17, #23, #30 and #32 in the example rally.
US	United States highway (as in US 66). See instruction #11 in the example rally.
YIELD SIGN	An official triangular sign which requires traffic to yield right of way to other vehicles. See instruction #11 in the

*

example rally.

In the interval official time column, indicates the point from which the next official interval time is measured. See instruction #5 in the example rally.

	A	B	C	D
1	 <p>Coker Tire Headquarters</p>	 <p>0 0 8 0</p>	 <p>20m00s</p>	<p>Start or restart time. The official start or restart time for the vehicle with assigned start position zero. Leave here at 8:00:00 plus your assigned start position in minutes.</p> <p>Begin Tire Warm-up of approximately 8 miles; take 20 minutes to complete the Tire Warm-up. The Tire Warm-up begins here and ends at the beginning of the Speedometer Calibration Run. Turn right at a T-shaped intersection out of Coker Tire Headquarters.</p>
2	 <p>Buchanan Blvd</p>			<p>Turn right onto Buchanan Blvd at a crossroad at a Traffic Light.</p>
3	 <p>Leaving Chattanooga City Limit</p>			<p>Pass a sign on your right reading in whole or in part "Leaving Chattanooga City Limit".</p>
4	 <p>Roosevelt Rd</p>			<p>Go straight to cross Roosevelt Rd at a crossroad at a Stop Sign.</p>
5	 <p>Jefferson Junction</p>	 <p>0 2 1 0</p>	<p>26m00s</p> <p>50 MPH</p> <p>* 0m00.0s</p>	<p>Pass a sign on your left reading in whole or in part "Jefferson Junction".</p> <p>End Tire Warm-up. Begin Speedometer Calibration Run of approximately 21 miles; take 26 minutes to complete the Speedometer Calibration Run. Begin average speed of 50 miles per hour. The Speedometer Calibration Run begins here and ends at the beginning of the next Transit.</p>
6	 <p>Mile 343</p>		<p>1m49.3s</p> <p>1m49.3s</p>	<p>Speedometer Calibration point. Pass a sign on your right reading "Mile 343". Cumulative speedometer calibration time is 1 minute 49.3 seconds; interval time (from instruction #5) is 1 minute 49.3 seconds.</p>

	A	B	C	D
7				Speedometer Calibration point. Pass an overhead sign reading "Truman Turnpike Exit 1/2 Mile". Cumulative speedometer calibration time is 7 minutes 21.3 seconds; interval time (from instruction #6) is 5 minutes 32.0 seconds.
8				Bear right onto Interstate 75 North
9				Speedometer Calibration point. Pass a sign on your right reading "Speed Limit 65". Cumulative speedometer calibration time is 16 minutes 2.0 seconds; interval time (from instruction #7) is 8 minutes 40.7 seconds.
10		 	 9m00s	Pass a sign on your right reading "End Freeway 1/2 mile". End Speedometer Calibration Run. Cumulative speedometer calibration time is 25 minutes 17.8 seconds; interval time (from instruction #9) is 9 minutes 15.8 seconds. The official time (for scoring purposes) is 26 minutes as specified in instruction #5. Begin Transit of approximately 4 miles; take 9 minutes to complete the Transit.
11			(0m30s)	Turn left onto West US Highway 11 at a Yield Sign at a T-shaped intersection. The time to the end of the Transit is approximately 30 seconds.
12				End Transit at the referenced sign. Time-of-day restart. Leave this point at 8:55:00 plus your assigned start position in minutes. Begin average speed of 30 miles per hour.

	A	B	C	D
13			40 MPH	Change average speed to 40 miles per hour at the referenced sign.
14			30 MPH 0m36s 45 MPH 1m12s 50 MPH	At the referenced sign, change average speed to 30 miles per hour for 36 seconds, then change average speed to 45 miles per hour for 1 minute 12 seconds, then change average speed to 50 miles per hour.
15			0 MPH 0m15s 45 MPH	Go straight to cross Sherman Street at a crossroad at a Blinker. Pause 15 seconds, then continue at an average speed of 45 miles per hour.
16				Grade level Railroad Crossing. Continue previous average speed (in this case 45 miles per hour) since no speed is given.
17			 (3h25m00s)	End timed portion. The timed portion of the stage resumes at the next restart, if there is one; otherwise, this is the end of the timed portion of the stage. In this case the timed portion resumes at instruction #23. Begin Transit of approximately 75 miles at the referenced sign; take approximately 3 hours 25 minutes to complete the Transit.
18			(2h55m00s)	Hosted Pit stop. After refreshments, leave here 2 hours 55 minutes prior to your end-of-transit time. (Pit stops always occur within Transits, and the time given is included in the specified transit time.)

	A	B	C	D
19			<p>(2h10m00s)</p>	<p>Refueling stop. Refuel in this area, then continue straight across Dakota Drive onto 15. Leave here 2 hours 10 minutes prior to your end-of-transit time. (Refueling stops always occur within Transits, and the time given is included in the specified transit time.)</p>
20				<p>Bear left onto 24 at a sideroad after the referenced sign.</p>
21			<p>(45m00s)</p>	<p>Hosted meal stop (usually lunch). After lunch, leave here 45 minutes prior to your end-of-transit time. (Meal stops always occur within Transits, and the time given is included in the specified transit time.)</p>
22			<p>(3m00s)</p>	<p>Rest Stop. Leave here 3 minutes prior to your end-of-transit time. (Rest stops always occur within Transits, and the time given is included in the specified transit time.)</p>
23				<p>End Transit at the referenced sign. Time-of-day restart. Leave this point at 2:55:00 plus your assigned start position in minutes. Begin average speed of 30 miles per hour.</p>
24			<p>1m12s 40 MPH</p>	<p>At the referenced sign, continue previous average speed (in this case 30 miles per hour) for 1 minute 12 seconds, then change average speed to 40 miles per hour.</p>
25			<p>50 MPH</p>	<p>Go under a bridge, then turn left onto Interstate 95. Change average speed to 50 miles per hour at the apex of the intersection. Begin Free Zone.</p>

	A	B	C	D
26			30 MPH	Bear right toward George Gulch. Change average speed to 30 miles per hour at the referenced sign.
27			45 MPH	Turn left onto Coolidge Cutoff at a crossroad at the referenced landmark. Change average speed to 45 miles per hour at the apex of the intersection (since there is no referenced sign).
28			50 MPH	End Free Zone.
29			30 MPH	
30		 	20m00s	Begin Transit of approximately 12 miles; take exactly 20 minutes to complete the Transit.
31			(0m45s)	Turn left at Blinker. The road may or may not be named. The time to the end of the Transit is approximately 45 seconds.
32			25 MPH	End Transit at the referenced sign. Leave this point 20 minutes after instruction #30. Begin average speed of 25 miles per hour.
33			0 MPH 0m15s 25 MPH	Turn right at Stop Sign. The road ahead may be unpaved, private, dead end, etc. The road to the right is Reagan Road but may not be identified. Pause 15 seconds.

	A	B	C	D
34		 	 30m00s	<p>Cattle guard (the cow may not be present). End timed portion; this is the end of the timed portion of the stage. Begin Transit of approximately 20 miles to the finish line; take 30 minutes to complete the Transit.</p>
35	<p>Hemmings Motor News Parking Lot</p>  			<p>Finish Line. End Stage.</p>

GREAT RACE
EVENT SUPPLEMENT #2: May 12, 2011
 Event Supplement # 2 replaces Event Supplement # 1 in its entirety.

- I.A.4 GREAT RACE is June 11 to June 17, 2011, from Chattanooga, Tennessee, to Bennington, Vermont. The competition is the optional Hagerty Trophy Run (Warm-up Rally) on Friday, June 10, followed by 7 Stages. Those Stages will include the following:
- a. Stages 1 through 5 are qualifying Stages.
 - b. Stages 6 and 7 are a two-Stage Championship Run.
 - c. Winners are determined by scores calculated on time, as defined in I.H.3.

- I.B.1 GREAT RACE is conducted by Great Race, Chattanooga, Tennessee (hereafter Great Race), and shall be under the control of officials designated by the Great Race organization.

STAFF

Director	Corky Coker

1st Place, Hagerty Trophy Run (Warm-up Rally), Rookie Class

DECALS: Ace Decals--two per team for each zero leg scored (on the Hagerty Trophy Run and Stages 1 through 7).

II.D.4.c There is no penalty for additional occupant(s) on the Hagerty Trophy Run (Warm-up Rally).

V.C.1.c Time Zone: Eastern Daylight Time (EDT) is used for timing and scoring throughout that Event.

V.C.2.f Ties are broken by the following procedure:

- (1) Ties for the Hagerty Trophy Run (Warm-up Rally) are broken by the following procedure.
 - (a) The older vehicle by scoring year wins the tie and the later scoring year vehicle takes the next position.
 - (b) If a tie still exists, the scores for each leg of the stage, except legs discarded per paragraph V.G.3, are compared. The team having the lower score on a leg wins that leg; the team winning the greater number of legs wins the tie.
 - (c) If a tie still exists, the scores of the tied teams are compared for each leg of the stage, in inverse order. The team having the lower score at the first leg where their scores differ wins the tie.
- (2) Ties for each Stage after the Hagerty Trophy Run (Warm-up Rally) and for Cumulative (Championship) Event Score are broken by the following procedure.
 - (a) The older vehicle by scoring year wins the tie and the later scoring year vehicle takes the next position.
 - (b) If a tie still exists, the team having the higher finishing position on the Hagerty Trophy Run (Warm-up Rally) wins the tie.

V.E Penalties

3.f Other penalties: Being carried on any trailer for any part of a Stage: 2 minutes

VII.B.2 Course Instructions: Availability

- a. One set of Course Instructions for the Hagerty Trophy Run (Warm-up Rally) will be available to each competing team at Rally School Friday morning (see I.D, Schedule of Events).
- b. One set of Course Instructions for the Stage 1 will be available to each competing team after the Mandatory General Meeting Friday evening (see I.D, Schedule of Events).
- c. With the exception of the Hagerty Trophy Run (Warm-up Rally) and Stage 1, one set of Course Instructions for each Stage will be available to each competing team each day near the Stage start, exactly 45 minutes before the official time for the team to start the Stage.
- d. The time and location for each Stage start (after Stage 1) will be found at the end of the Course Instructions for the previous Stage. Each team's official starting time is determined by adding their starting position (see III.A,B,C) in minutes to the official Stage start time.
- e. The contestant must show his/her identification tag with the vehicle number in order to receive the Course Instructions. At this time the contestant may be required to draw for the next Stage starting position.

VIII.C.1 A Special Display Area (also referred to as a parc fermé) has been designated in the start city, in overnight cities, and in the finish city; and hours have been specified during which contestant vehicles must be in the Display Area. See I.D, Schedule of Events.

Scoring procedure for Stage 7: There will be an Observation Checkpoint near the Lunch Gate in Stratton Mountain on Stage 7 after the end of the timed portion of the Stages. When you arrive there, you must immediately submit any Time Allowance Requests for the Stage. You will then be given your checkpoint times for the Stage. Any questions involving timing or scoring, or any Problem Resolution Requests, must be submitted at the Observation Checkpoint within ten minutes.
